WASHINGTON UNION.

New Volume, New Types, and New Arrangements. THE undersigned takes this method of informi

the members of the great national democratic party that, hav-ing assumed the sole proprietorship and editorable of the Massingroot Union, he looks to them for that countenance, encouragement, and support which has hitherto been extended to this time-honored organ of the democracy, and without which his labors would indeed be profities.

particular we confidently look for active co-operation four present in efforts to place a copy of the Daily, Weedly, or Sent-Weelly Union in the hands of every farmer, mechanic, and working-man in the country.

The subscription price of the Daily Union is ten dollars per annum. The Tri-Weelly (published semi-weekly during the recess of Congress) is five dollars per annum, and contains all the reading matter which appears in the Daily. The Weelly flowed is furnished to subscribers at the low rate of one dollar per annum, and is justly regarded as the cheapest political paper in the world. It is a large and handsomely-printed sheet, and contains as much reading matter in the course of a treelver-nonth as would make steels ordinary octans volumes. It will be found to possess the advantages of both a political and a family newspaper. The most important political articles of the daily issue are transferred to the weekly, and during the sitting of Congress a careful abstract of the daily proceedings of the two houses is prepared exclusively for its columns. It contains, besides all important State papers of the year, election returns from every State in the Union, appeared or flow year, election returns from every State in the Union, appeared or of actinguished democratis in and out of Congress, interesting currespondence, a full summary of foreign and domestic news, and from week to week such information in regard to the agricultural, manufacturing, and commercial interests of the country as with bound, it is believed, of particular value.

That the Weelly Union to appreciated in the most substantial manner by democratis in every section of the Union, no better evidence need be desired than is furnished by its rapidly-increasing circulation. Within eighteen months threshy thousand sea name have been added to the subscription list, and, with the slightest exertion on the part of our friends, its circulation can be increased to one hundred thousand copies before the close of the year. Will our friends exert themselves
